

MedImpact Home Infusion Pharmacy Qualification and Certification

As established by CMS, a pharmacy must meet all of the following criteria to qualify to be a part of the MedImpact Home Infusion Therapy (HIT) pharmacy network for Medicare Part D programs:

1. Form of administration:

Pharmacy delivers home infused drugs in a form that can be administered in a clinically appropriate fashion in the member's place of residence.

2. Care for acute and chronic conditions:

Pharmacy provides infusible Part D drugs for both short term acute care (e.g., IV antibiotics) and long term chronic care (e.g., alpha protease inhibitor) therapies.

3. Services and supplies:

Pharmacy ensures that the professional services and ancillary supplies necessary for home infusion are in place before dispensing home infusion drugs to the member in his/her place of residence.

4. Delivery:

Pharmacy provides delivery of home infusion drugs within 24 hours of discharge from an acute setting, or later if so prescribed.

By signing below, pharmacy certifies and attests that the foregoing is true and correct with respect to its qualifications as an HIT pharmacy and that, upon MedImpact request, it will provide any information to support the validation of these statements and affirmations.

NCPDP Number(s): _____

Pharmacy Name: _____

Completed by (print name and title): _____

Authorized Signature: _____ **Date:** _____
